When it comes to placing our puppies with new families, it is very important to us that we find the perfect home. Our collies are our fur kids and it is extremely important to us that when adopting a puppy that new owners have the knowledge, ability, facilities, and most resources to provide a happy, caring and loving environment. Collies are sensitive and they will depend upon you completely to live a long, happy and healthy life. If you are interested in a puppy, please fill out and mail the attached application form. You may also call us and we will be more than happy to assist you. However, the application must still be filled out as part of the ownership process. If you are not located in this area, please feel free to fill out the puppy application form and ask for a referral. We only refer to breeders that uphold the same breeding ethics that we ourselves practice and to whom promote the welfare of the breed. Our first priority is that our Kelstrin puppies become a family member and not just the family "dog."
